Choosing the right category is one of the most important steps to grow your income and attract the Members who are most interested in you.

Each category has its own style, rules, and audience. When you understand how they work, you'll avoid warnings, stand out from the crowd, and turn visitors into fans.

Nude Categories

These categories are for performers who offer **nudity and explicit content in Private Shows**.

- **No see-through or transparent clothes** that show intimate areas.
- **Sexy and stylish outfits are encouraged** – use your look to get attention.
- Teasing and flirting are welcome – keep it exciting without showing too much.

 **Pro Tip:** The better you use Free Chat to tease and connect, the more likely Members are to go Private.

 A Studio account is needed if you want to work as a Couple.

Fetish Category

This category is perfect if you love **unique looks, role play, or power dynamics**. Fetish content is all about the vibe – bold outfits, dominant energy, or specific themes.

What's expected:

- Your outfit and attitude should reflect the fetishes you've selected in your Willingness List.
- Think: latex, leather, corsets, boots, fishnets, uniforms.
- Props like whips or chains are optional – only use what feels right for you.
- Fetish performers can use **any room style** – the focus is on you and your performance.

- If you choose a **dominant role**, you can say **no** to explicit requests.

✅ Fetish Models get access to a **wider Willingness List**, meaning **more visibility and more earning potential**.
