

Live Jasmin Payout System

Standard Payout

Payouts are sent for invoicing periods of 14 days, usually twice a month. You need to reach your Payout Threshold – minimum \$100 – in order to receive payment. The Standard Payout Date of an invoicing period is 25 days after the period. All your payouts and invoices are listed on the [Payout Overview](#) page.

Payout Overview

Starting 01.09.2020, **payout dates are closed in every two weeks (14 days)**. The Period End date is indicated for each closure. The Period Start date is the day following the Period End date of the previous closure. If you have no previous closure, the Period Start date is your account registration date.

Payout Options

<https://modelcenter.livejasmin.com/en/payout/options/details>

If you use **Standard Payout type**, your payouts are performed 25 days after the Period End date. This is indicated under Due Date. If you prefer a faster payout, you can withdraw your last period earnings any time before the Standard payout date.

You can also set your payout type to **Fast Payout**, so to have your funds sent always one day after the period closure (instead of 25 days).

A payout period is closed in 1-3 days after the calendar end of the period.

Fast Payout

Instead of waiting for 25 days for the Standard Payout, you can decide to withdraw your payment any time after the period ends, or set your Payout Type to Automatic Fast Payout, in order to automatically receive your earnings immediately after an invoice period. The fee for Fast Payout is 1% (min. \$5, max. \$150) of the payout amount. You can set your preference at the [Payout Options](#) page. You still need to reach your Payout Threshold – minimum \$100 – in order to receive payment.

Instant Payout

Provided that you reached your Payout Threshold, you can ask for Instant Payout of your earnings, without waiting the end of the Standard invoicing period. The fee of the Instant Payout is 3% of the payout amount (min \$5), and it will be processed within one business day after your request. To use this feature, Studios need to earn at least \$1,000 in three consecutive periods, while individual Performers need to make at least \$300 during two consecutive periods. In order to maximize the number of your payouts, you can also set your Payout Type to Automatic Instant Payout and receive your earnings automatically as soon as you reach the Payout Threshold.

Invoicing

You can set up your Billing type as a Natural Person, as a VAT Registered Individual, or as a Company. As a Natural Person, we issue Self-invoices on your behalf, while with the other two options you can choose to upload your own invoices as well. If you have selected the Upload invoice option, we will execute the corresponding payment only after the invoice is uploaded and accepted. You can find / upload your invoices and read more information on the [Payout Overview](#) page.

Payout in EURO

If you choose the EUR currency payout, the final payout amount will be exchanged from USD to EUR, based on the date when your service was performed (i.e., every day a different FX rate is applied). The rate is calculated daily, based on official mid-market range available at the [database of European Central Bank](#). An additional 0.3% difference is applied, in order to mitigate risks. You can decide the currency of payout for the ongoing and future periods only. Studios registered in the SEPA area may only receive EUR payouts, while those in the United States can choose USD currency only.

Change of payout details

In order to change your payment method, go to the [Payout Options](#) page and click use the change link at the bottom of the page. Please make sure that you make/upload a recently taken, new Face+ID and ID picture during the process. Pictures used during any registration may not be accepted. The video below will guide you through the process.

Payment Methods

You can use the following e-Wallets to receive payment from us: **Paxum**, **Cosmo Payment** or **WebMoney**. Furthermore, we can settle **EUR SEPA and USD ACH transfers** from our corporate accounts directly to your bank account. In addition, we process local bank payments in Latin America with the help of **Pandablue** and **PagoMundo**. **Crypto currency payouts** are also available.

Paxum
