

How can I monetize my content?

How can I monetize my content?

Here's how you can make money on My.Club:

1. **Set your club's membership fee** that all members need to pay every 1, 3, 6, or 12 months to be able to view your content.
2. **Send paid content to your fans in Personal or Mass Messages.**
Your fans will have to pay in order to view it.
3. **You can set the price for your fans to send you a photo.**
That is, they can send you their photos, but only after they pay the price you choose.
4. **Anyone can send you tips** if they love you and your content.
5. **You can set up a dream goal** to which your fans can contribute.
6. **You can use Secret posts**, these posts are locked for everyone, even for your paid members (can be changed). Each individual post should be purchased in order to be viewed.
7. **Enable Video Calls** and let your fans connect with you on a deeper level. To call you, they need to first buy a pack of minutes.
8. **Activate the Request Menu** and offer extras.
You can add exclusive items to the **Request Menu** that anyone can order.
9. **Set up your Digital Twin.**
Once your Twin is activated, it will start making money for you by selling content.
