

How to create your Fan Club

Models

Fan Club is a paid subscription feature that lets fans support you every month and helps you earn passive income. It's also a great way to build stronger, long-term relationships with your audience.

Here's how it works:

There are 3 subscription tiers available: Soldier, Lord, and Prince. The benefits included in each one are entirely up to you. You can set your own subscription price for each tier in the Fan Club settings by choosing from predefined values or entering a custom price.

Each tier reflects a different level of support from your fans. Depending on which one they subscribe to, they'll have a distinctive badge in your room, and you'll receive tokens based on the price you set for that tier. Subscriptions can be paid monthly or upfront for 3, 6, or 12 months.

You can adjust prices at any time to better match your audience and the value of the perks you offer.

What's in it for the user?

A way to directly support you

A special badge in your chat to show they're a Fan Club member

Discounts on your Tip Menu and Private Shows (if you choose to offer them)

Access to exclusive Fan Club photos and videos (if you choose to share them)

Private messaging with you

Different subscription options at flexible prices, so fans can choose the tier that fits them best
