

How to detach my model account from a Studio?

How to detach my model account from a Studio?

Models

Updated

Neither you nor Customer Support can detach your account from the studio. However, you can request that your studio initiate the detachment.

If your account was independent before the attachment to the studio, make sure you have access to the email address linked to it. Afterwards, ask your studio to detach your account.

If your account was created by the studio, you can ask your studio to detach the account as per the [instructions](#).

If the studio approves your request, you can start using your independent account.

Note: Models can leave studios that are blocked forever. Please see [here](#) how to detach your account from a blocked studio
