

How to make money on Stripchat: ways to earn

Models

To learn how to make money on Stripchat, explore multiple earning options, as model income comes from different token-based sources on the platform.

- **Online tips:** users can tip you while you're broadcasting as an appreciation or for a request. Make sure you list your activities with prices in your Tip Menu so that users know how much to pay for each request.
- **Offline tips:** users have the option to send you tips even when you are not online.
- **Topic/Goal:** this is the incentive for members to leave tips in your chat room. Make it up to them with a show they wouldn't easily forget.
- **Epic goal:** you can get your audience to help you raise money to achieve a special goal. Unlike normal goals, Epic goal will always be available, so users can tip to help reach it even when you're offline.
- **Private show:** you set your own price per minute and the requester enjoys an intimate show just with you. However, spies can enter the Private Show.
- **Private show recordings:** you have the option to record your Private shows and save them to your video gallery. If you choose to publish them, you can do so under a paid video status and therefore make some extra cash.
- **Record show:** you can allow recording of your public and Private shows to have some passive income. Users will be able to record them and keep a copy in their personal galleries.
- **Spies:** users with tokens can sneak a peek into what's going on in your room for free only once the first 15 seconds, and if they are left wanting to see more, they have to pay your set price to continue spying. They cannot chat, only watch.
- **Group show:** This is like a Private show, but an unlimited group of people can join. You decide

and set your preferred price and users pay per minute. Let them know whether the show will start immediately or in 10 minutes and prepare for the fun.

- Ticket show: it's a regular Group show but instead of setting your rate per minute, you set a fixed price that users must pay with their tips once you announce the show in order to join.
- 3-Hourly Contest: each 3 hours we reward the top 5 earning models with StripPoints and cash prizes. Only online tips count for the contest.
- Monthly Contest: according to how many StripPoints you received from the 3-Hourly Contest, you can opt to win up to \$1000 every month.
- Sell your content: not only you have a choice to create public albums for all users or just Friends, but also paid albums for anyone willing to give tokens. Add your best shots and videos, set the price and get some passive income.
- Interactive toys: you can connect your Lovense and Kiiroo toys to Stripchat, set the reaction time and vibration level, and have them react to tips.
- Fan Clubs: this is a subscription service that you can enable anytime to get passive income on a monthly basis from your loyal fans.
- Feed: this is a section where you can create your own posts to share with users who have you in Favorites. The best part is that users can even send you tips through Feed.
