

Stripchat rules for model: guidelines and standards

Models

Stripchat model rules set clear content standards, ensure safety and compliance, and help maintain a respectful, high-quality platform for all users. These Community Guidelines are designed to ensure the best experience for everyone, as well as to maintain the legality, safety, and quality of all content. By using the Website, you agree to these guidelines and our [Terms of Use](#).

Consent & Verification

We do not allow anyone to upload pictures or videos of a person without that person's consent and without that person being registered and verified on our Website.

We do not allow models to broadcast unless they have successfully passed our KYC process on the account they are broadcasting from. This applies to every person appearing in the broadcast.

If you are streaming from a public place, take appropriate measures to ensure that unregistered persons do not appear on your stream. If there is a high risk that non-registered persons might appear and you cannot ensure otherwise, then we recommend that you stop the stream.

We will take action against accounts if we have sufficient reason to believe they are currently using or have previously used non-authentic or tampered documents.

We will terminate any person's account and submit a report to the relevant authorities if we have sufficient reason to believe they are participating in any way in human trafficking.

In Group accounts, the Account Holder must be present on camera during every stream.

We strictly prohibit the sexualization of minors in any form or medium, including chat.
